Sankeerth Devella

Co-Founder & Full-Stack Engineer | WishCraft Studios

Hyderabad, Telangana, India · sankeerthdevella@gmail.com · LinkedIn · GitHub

Professional summary

Co-Founder and full-stack engineer building production-ready web and mobile products end-to-end — from architecture and backend systems to frontend UI, SEO, and security. Comfortable working across React/Vite, TypeScript, and Tailwind CSS with AI-assisted development workflows. Strong track record of leading cross-functional collaboration, structured problem-solving, and shipping practical digital products on tight timelines.

Experience

Co-Founder | WishCraft Studios — June 2026 – Present · Hyderabad

- Co-founded WishCraft Studios to engineer high-velocity, production-ready web platforms and software ecosystems for global brands.
- Own end-to-end project management, system architecture, and implementation across client and internal products.
- Lead prompt engineering and AI-assisted development workflows to accelerate delivery without compromising code quality.

Managing Partner | Prajñā Foundation — July 2026 – Present · Telangana

- Manage business partner relationships and strategic partner coordination for the foundation's initiatives.

Projects

WishCraft Studios — Platform

GitHub Live site

- Designed and built the company's own web platform, covering architecture, frontend, and backend.

VersaCareer

GitHub Live site

- AI-driven career guidance platform offering resume analysis and personalized recommendations.
- Rebuilt backend and redesigned the frontend; implemented SEO improvements and hardened application security.

VersaCareer AI — Mobile App

- Built the complete mobile app prototype from concept through functional UI, extending the VersaCareer AI product line.

Desi Drip

GitHub

- Fashion-focused application for styling ideas and outfit recommendations — project setup, frontend, backend, and testing.

SettleX — Mobile App

GitHub

- Expense-splitting mobile app; built the frontend and contributed to product planning and database organization.

Collivio

- Built the working backend for the client's website as part of a delivery team.

Sankeerth Portfolio

GitHub Live site

- Designed and built a personal portfolio site to showcase projects, skills, and experience.

Hackathons

- Ranked Top 3 in Round 1 (Aptitude); qualified for Rounds 2 and 3.
- Advanced to the Top 10 Finalist stage after the interview round, demonstrating teamwork, problem-solving, and project execution.

Certifications

- Oracle University — Oracle Certified Foundations Associate (Agentic AI), 2026
- HackerRank — JavaScript (Intermediate)
- TestDome — Frontend Developer Certificate
- Enginow Hackathon — Participation Certificate
